

CAN YOU HELP FUND THE NATUREPLAY PROJECT?

Do you work for a company who might fund grants for community projects?

A number of our parents have obtained grants through companies they work with such as Telstra and Alcoa. Can you explore whether the company you work for, or know of, could help out on this project? We can supply our project brief, design and costs if needed.

Please let us know if you know of someone who can help make our park happen. We appreciate your help
