PUPILS DISPLAY THEIR CREATIVITY

THE works of 300 budding Picassos, Da Vincis and Monets were on display at Winterfold Primary School's 2016 Art Exhibition.

Each student in the school was involved, with each class tasked with creating different artworks, including stocking babies, mosaic tiling, pottery, abstract art and 3D creations.

Hunter said the students were so proud to show off their work.

"These events are very important for our students and the local community to come together in an area where their creativity can be explored," she said.

"It takes the focus off the more defined areas ... and lets a little of the more enjoyable creative freedom begin."
